

Are you having trouble with your computer or looking to upgrade it? Would you like to speak to someone local that won't baffle you and will let you know what you need without any extras added on?

An initial assessment and if possible, problems repaired and upgrades carried out in your home with **no call out fees**.

Would you like a computer building to your specification?

An **example specification** of a computer:

Midi Tower Case
Intel P4 3.0GHZ Processor
512 MB DDR Ram
120 GB Hard Drive
Dual Layer DVD +/- Re-writer
15" LCD Monitor
256 MB Graphics Card
1.44 MB Floppy Drive
6 USB Ports
Keyboard
Mouse
Stereo speakers
56k Modem
Windows XP Home Edition

(Picture for illustration purposes only)

£750 inc VAT

Budget PCs from £450.00 inc VAT

Both prices include **standard installation** in your home

Or, would you like to know how to use your computer a little better? I can provide basic training in your own home on using the internet, e-mail, Microsoft Office and various other software.
